RUPEES ONE HUNDRED ONLY

The Abtach Shareholders

Karachi, Pakistan

Dear Azneem Bilwani,

I tremble at the thought of writing this letter but I feel that it is necessary. And it is to confront my demons that I have travelled back to Pakistan to confess to my crimes and infidelity and handover all the reins and proceeds of my unlawful activities to you.

I am very remorseful for my acts and it is our relationship which has prompted me to do this and makes coming out so difficult and hurtful. You have always acted like my elder brother, like my protector. I remember when in 2017 you came to protect me from the blackmailing Shoaib Shaikh at the Gizri Police Station and I remember how you protected me during the FIA proceedings, which I must admit resulted partly because of my own conduct.

Recently, I came to realize that I made couple of mistakes that has affected the company during my tenure. Having gained your trust I was given sufficient authority to influence ABTACH and its staff. I admit that I have utilized company's resources for my personal gains. Whilst using the know-how, expertise, resources and contacts stolen from ABTACH I have formed parallel companies in the US which are doing the exact business that ABTACH does and that I was entrusted to do and flourish while at the helm of ABTACH. I used confidential and private data and information to enrich myself. I used personnel that you introduced me to grow and promote ABTACH like Asba Banu w/o Abdul Aziz to setup and operate parallel businesses whilst holding key position at ABTACH.

Since I am coming clean it would be incumbent upon me to expose those persons who colluded with me to cause losses to ABTACH: I have worked with Ms Irsa Farooqui while she was employed by Abtach to impersonate Asba Banu in order to establish Merchant accounts and assist me in the operations while getting paid by ABTACH. I admit that I have assisted Mr Ali Hassan by providing him Merchant accounts for Trade Mark Sales receipts. I admit that, I have worked with Mr Shiraz to

Sahar Farooqui

establish a POS brands and worked on active leads and sales from Abtach. I admit that I hired Mr. Anil Raj for managing multiple brands in my company. I admit that I have established a parallel drop shipping brand in my wife's name MomYum.

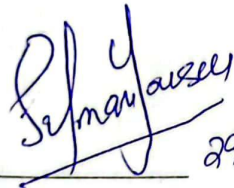

Not only has my conduct exposed ABTACH to criminal prosecution, and potential civil liabilities, they have also brought ridicule and has caused embarrassment to ABTACH. I have been using one of your staff members Ramis Murad for handling Wikipedia and running paid material masquerading as one of ABTACH's sister concerns and concealing the same from you. I am aware that this caused great embarrassment to ABTACH.

I also admit that greed had overcome me and forced me to do things which a law-abiding, conscience and moral person would not do. It would be easy to term it a mistake. Nevertheless, I write this letter of Confession to take full responsibility for my actions and omissions and in order to right the wrong, I wish to make amends financially and offer restitution. I have earned about _____ from the parallel businesses whilst causing harm and damage to ABTACH. Nothing will account for the mental torture to you and your family for our conduct whilst operating in the US and the resultant inquiries that you faced in Pakistan.

The shame has emboldened me to offer the remaining part of my unlawful earnings to you and I also hereby tender my resignation and shall be at your mercy should you wish to initiate any legal proceedings against me.

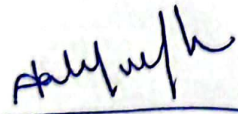

It may appear to some that this letter was forced upon me. But that is not the case. I take full responsibility of my greediness and disloyalty and volunteered all the disclosures contained herein. In order to supplement my sincerity and truthfulness I will instruct my counsel to publicize this letter in the print media.

Once again, Azneem bhai I am so truly sorry for my actions and for breaking your trust. I hope you will find it in you to forgive me.
